

# Introduction to radio: INSET

Develop your teaching practise through radio, and pass on your knowledge to students through our simple lesson guides.

## Recording audio

We provide training on how to teach:-

- recording techniques
- booking and interviewing guests
- best practice when working outdoors
- how to write/present for radio

## Editing audio

From free software to professional hardware, we have the expertise to deliver high-quality training for your teachers.

Whether you need a refresher on the basics, or an advanced look at mixing and editing, we can accommodate.

## Making podcasts

Learn how to produce, maintain and distribute your own podcasts using software freely available on the internet and how to pass this knowledge on to your students.

Produce audio features, shows, news reports and record stories.

Also perfect for documenting class presentations, assemblies and awards ceremonies.

## Want more?

Ignite Creative works extensively in multimedia and video as well as radio. Why not get in touch to see how we can help you?

\*Courses in video production, editing and camera training

\*'Make a film in three days'

\*Courses on current Media Law and other legal issues

\*We can also produce audio, video or written content for your website

Ignite Creative TV is a creative content production company making web, mobile, video and radio material. Our clients include music and entertainment companies, youth platforms, broadcast networks and educational and government websites.

We also run courses in Radio Production & Presenting, Video Production & Editing and Music Production. Our courses are customised for specific groups depending on age group, ability and the objectives of the group.
